- **Back-End Development:** C++, C#, C, Python, Java, Kotlin
- **Database Development:** SQL Databases, PostgreSQL, MongoDB
- **Developer Tools:** GitHub, JIRA, GitLab
- **UX Design:** Figma, Adobe Photoshop, Adobe Premiere Pro, Adobe Illustrator, Adobe InDesign
- **Administrative Tools:** Microsoft Office Suite, Google Suite

WORK EXPERIENCE

Software Developer / CAE Inc. / Montréal, QC

April 2022 - Present

- Developed, tested, and debugged front-end applications using modern web technologies, ensuring cross-browser compatibility and adherence to accessibility standards
- Assisted designers and developers in transforming mock-ups into interactive web experiences, aligning with best practices in usability and responsive design
- Provided technical recommendations and collaborated with cross-functional teams to enhance the functionality, scalability, and user experience of digital platforms

Documentation Specialist / CAE Inc. / Montréal, QC

Jun 2021 – April 2022

- Communicated information effectively by developing clear and accessible documentation, ensuring clients could easily understand and navigate IT department's products and services
- Improved client experience by writing and organizing reports, integrating feedback, and keeping materials up to date to support other departments needs
- Organized department meetings to collect information, gather feedback, and ensure alignment on key priorities and initiatives

EDUCATION

Bachelor's in Computer Science

Expected Graduation: April 2025

Concordia University, Montréal, QC

Diplôme d'études collégiales (3-year technical DEC) in Computer Science

2019-2022
